

CITY OF BEARDSTOWN IN DANGER AS FLOOD THREATENS CITY LEVEE

City Officials Expect the Levee to Give Way
Within the Next Twelve Hours—Water
Now Near Doorway of Leading Hotel—
Greatest Flood Stage Since That of 1844

(By The Associated Press)
BEARDSTOWN, Ill., April 7.—Straining at the city
levee which had sprung a leak late today, the Illinois river
was expected to break thru into Beardstown tonight, city
officials said.

Early tonight ten blocks of the lower part of the city
were covered with backwater which reached within
eighteen inches of the door of the leading hotel and other
business houses.

Mayor Wesley Perry declared early tonight that there
was "no chance" of preventing a break in the levee. He
said when the break came the water would cover fifteen
blocks of residences.

With each gust of wind causing a wave on the river,
water poured to the top of the eight foot levee which
extends for one and one half miles along the Beardstown
river front.

Seventy five men fought to save the levee tonight. The
leak which occurred today was about the size of a man's
arm and was stopped by the river men.

WEEKS WANTS TO ENFORCE LAWS IN THE CANAL ZONE

Asks Haynes to Keep
Prohi Agents Out
for a Time

(By The Associated Press)
WASHINGTON, April 7.—Secretary Weeks was understood to-
night to have requested Commissioner Haynes to keep federal
prohibition agents out of the Panama
Canal zone for a time at least and
allow Governor Morrow to con-
tinue the administration of the
naval dry law there without as-
sistance of other departments.

Appointment of John T. Har-
rington, formerly of Revere, Mass.,
now in the Canal zone as federal
prohibition director for the zone
was announced recently by
prohibition headquarters but it
was said tonight that the commis-
sion had not actually gone for-
ward.

Mr. Haynes is understood to
have acceded to Mr. Weeks re-
quest and it was said at the bu-
reau that the installment of Mr.
Harrington and a force of prohibi-
tion agents in the canal zone
would be held up under the matter
could be taken up between the
two branches.

Application of the National
Prohibition law to the canal zone
is provided by the Willis-Camp-
bell act which was enacted a few
months ago. The position was
taken by Secretary Weeks that the
establishment of a federal probi-
tion director in the canal zone
would result inevitably in rais-
ing the question of dual au-
thority. Governor Morrow is the
supreme authority resident in the
zone and acting under the war de-
partment has control of every in-
dividual therein.

WANTS WORKERS TO ESTABLISH A FIXED PLACE OF RESIDENCE

Millions are Deprived of
Vote, Miners' Secretary
Says

(By The Associated Press)
COLUMBUS, O., April 7.—Es-
tablishment of a countrywide em-
ployment bureau under the direc-
tion of the National Secretary of
the Migratory Workers' Union de-
signed to help miners establish
a fixed place of residence as well
as obtain jobs, is called for in a
resolution adopted today at the
National convention of the union.
"This organization represents
millions of workers, who on ac-
count of their nomadic life are
deprived of the right to vote,"
John Kelly, Chicago national sec-
retary said. "If the men are sent
to their jobs from a certain point
with the understanding that they
are to be furnished transportation
back to that point by the em-
ployer, they may establish their
residence there. By doing this
they will take a long step forward
in the effort to show society that
the transient worker is in reality
an important factor in the econ-
omic life of the nation and not an
ordinary 'bum'."

A resolution approving the pro-
gram of General Jacob S. Coxey
to provide workers' jobs was ad-
opted.

HUGHES SAYS DAY HAS NOT TOLD ALL ABOUT SHOOTING

Believes Beck Was
Killed in Defense of
His Home

(By The Associated Press)
OKLAHOMA CITY, Okla., April
7.—Jean P. Day, oil operator and
attorney shot and killed Lieu-
tenant Colonel P. W. Beck, army
flyer, "in defense of home" and it
he tells the true story of the trag-
edy any red blooded jury would
acquitt him," County Attorney
Hughes declared today in a state-
ment giving the result of his in-
vestigation.

Day "saw something that swept
him off his feet" when he re-
turned to his home early Tuesday
and found his wife and a diver in
the arms of Lieutenant Beck, the
county attorney said he was con-
vinced.

"Beck was not looking at Judge
Day at the time of the firing,"
Hughes said he had concluded.

"It was not in self-defense the
attorney shot Beck down,"
Hughes said. "It is my opinion,"
he declared "that Day has not
told the whole truth."

Morgan Pruett attorney for
Day declared tonight:

"Judge Day has told the whole
truth. Day and Mrs. Day will
tell at the coroner's inquest Sat-
urday the same story they have
already given the public because
it is the truth."

The county attorney has an-
nounced that unless the whole
truth is forthcoming it would be
his duty to file either a murder
or manslaughter charge against
Day. The facts and circumstances
developed at the inquest will
guide his action Hughes said.

"An important matter I think has
been entirely overlooked,"
Hughes' statement said, "is the
proposition of a handkerchief
being found in the clenched
hand of Beck. What had Beck
been doing with his handkerchief
immediately before the gun was
discharged?"

Day has declared that he re-
turned to his home after driving
home some midnight party guests
found Mrs. Day fighting Beck
who was attempting to assault
her. Day said he went upstairs,
obtained a revolver, came down
and confronting Beck struck the
army officer over the head with
the revolver when Beck drew
back one hand. The discharge of
the revolver was accidental he
asserted.

Whether Beck was shot from
the front or back is one of the
greatest questions involved in
the case the county attorney said
he added that x-ray photographs
indicated Beck was not in a posi-
tion to see his slayer when his
life was ended.

Declaring that Day and Beck
had been close friends before the
tragedy, Hughes asked:
"What extraordinary occur-
rence changed the mental condi-
tion of the one towards the other,
what caused Mrs. Day after the
shooting to moan, 'Oh, my
honor.'"

Hughes asserted that in his
opinion there was no doubt that
intoxicating liquors had been
served at the Day home the night
of the killing but he said he be-
lieved Day was "not under the
influence of liquor when the shot
was fired."

Reports that "words passed" at
the Day party or that ill-feeling
was displayed between Day and
Beck before the killing appar-
ently are baseless, W. R. Withington,
county evidence attorney said
after interrogating guests at the
party.

"Everything was agreeable and
pleasant," said L. P. Prichard
a guest.

Day declared today there had
never been a quarrel with Mrs.
Day over Colonel Beck.

Surrounded By Water.
Beardstown is completely sur-
rounded by water from one to
three feet deep, covering 500,000
acres of wheat lands. More than
a million acres of wheat land
would be inundated by a break
in the levee it was said.

Passenger trains were oper-
ated to and from the city tonight
at the rate of seven miles an hour.
The floor of the bridge across the
river on the road into Schuyler
county was under three feet of
water. The level at 8:30 tonight
was 21.1 feet.

Included in the early damage
by the flood was the breaking of
the Illinois Bell Telephone com-
pany's cable under the river.

All of the levees in the river
districts are constructed independ-
ently of each other and a break
in one would not make the situ-
ation much worse at others, river
men said tonight.

"Beardstown needs no outside
help," said Mayor Perry. "The
people are used to high water and
are taking the flood calmly. There
is little danger of loss of life."

Workers tonight were bank-
ing sewers with sand bags to hold
the water back in several parts
of the city. Officials said it was
the first time in the Northern
United States that this means had
been resorted to in fighting flood.

WILL MAKE DRIVE TO
WIPE OUT DEBT.

NEW YORK, April 7.—A drive
to wipe out the \$375,000 debt
which still faces the Republican
national committee will be made
in New England and the North
Atlantic states at once, it was de-
cided today at a meeting of the
committee sub-committee on fi-
nance called by Charles D. Hilles,
chairman.

Senator Medill McCormick of
Illinois and Fred P. Upham, treas-
urer of the National committee
suggested the effort and Mr.
Hilles will direct it.

ATTORNEY THROWS
ARM OUT OF JOINT.

OMAHA, Neb., April 7.—As-
sistant County Attorney Charles
Kubat gesticulated so vigorously
in his prosecution in District
Court today of Sebastian Carleo
for a liquor law violation that his
right arm was dislocated. The
attorneys pulled it back into
place.

Carleo was convicted.

MEN ARRESTED IN BOSTON HAVE BONDS STOLEN IN AURORA

Bonds Were Stolen from
Catholic Church in
That City

(By The Associated Press)
BOSTON, April 7.—Four men
were arrested in the financial dis-
trict today at the gun point of
detectives after they had made
several attempts to dispose of
negotiable bonds valued at \$25,
000.

A telegram received tonight
from police at Aurora, Ill., in re-
ply to a description of the bonds
sent out by police here said that
all the bonds named with one ex-
ception were taken from the safe
of the Catholic church at Aurora
on February 18. It also said that
a monogram watch found on one
of the prisoners belonged to the
Rev. P. G. Weber, pastor of the
church.

One of the men arrested gave
his name as John Russell. The
names of the other three were
withheld. All were booked as
suspicious persons and their de-
scriptions of the bonds were sent
to every large city in the country.
Police said they believed one of
the men was a former Boston
pickpocket who now resides in
Denver, that a second was a Bos-
ton broker and the other two men
were believed to come from
Cleveland. Each of the bonds
found in their possession was for
\$1,000.

The suspects surrendered with-
out resistance and were taken to
police headquarters to be search-
ed.

On one man a loaded revolver
was found. Russell had a mono-
grammed watch with the initials
"P.G.W." a watch fob bearing
the initials "G.P." and two pic-
tures, one of himself and the
other of a woman.

LASKER WOULD PUT
JONES' ACT INTO
EFFECT AT ONCE

Provides Preferential Tariff
On Goods in American
Bottoms

(By The Associated Press)
WASHINGTON, April 7.—The
most economical way to build up
an American merchant marine
would be to put into effect
Section 34, of the Jones' act
which provides preferential tariff
duties to inure to goods imported
in American bottoms, Chairman
Lasker of the shipping board de-
clared today at the joint congres-
sional hearings on the adminis-
tration ship subsidy bill.

Forced to turn to an alterna-
tive by the refusal of Presidents
Wilson and Harding to abrogate
portions of commercial treaties
with certain foreign nations
which prohibit the United States
government from giving American
ships preferential treatment as
against foreign vessels, Mr. Las-
ker said shipping board officials
with presidential approval had
worked out the subsidy program
now pending before the senate
commerce and house merchant
marine committees.

"It will be more expensive,"
he added, "but it's the only thing
we could do."

Mr. Lasker pointed out that the
discriminatory duties proposed in
Section 34 would have inured to
the benefit of shippers and not to
that of ship owners. Such aid
would have provided full cargoes,
insuring expansion of the Ameri-
can merchant marine, he added.

Discussing direct aid provision
of the subsidy bill Mr. Lasker
predicted that in ten years indi-
rect aids would be sufficient for
maintenance of the merchant
marine and that the government
would no longer be required to
pay direct aid. He added that it
was for this reason that he favor-
ed ten year contracts with ship
owners instead of fifteen year
agreements.

WASHINGTON, April 7.—Dur-
ing last year 528 state and pri-
vate banks were closed according

Crissinger, summarizing bank

otherwise liquidate their liabilities.

The liabilities of the other 365
banks, he reported aggregated
approximately \$96,000,000 mak-
ing the average per bank about
\$263,000.

vision, Mr. Crissinger declared
was the most seriously affected,
there were 253 failures with li-
abilities totalling \$27,000,000 in
that section.

Failures in the middle states
were sixty and the reported
liabilities \$9,983,000.

tured, it was said in first accounts
of the tragedy.

SAN FRANCISCO, April 7.—

out search warrants. They have
internal revenue and customs ser-
vice agents with them on their

cers may search without war-
rants. The plan was tried out in
visiting about the arrest of a
"barfraz, Calif. barber on the
charge of possession of smuggled
liquor.

BILL TO INCREASE FEDERAL JUDGES PASSED BY SENATE

Opposed by Demo-
crats as "Pork Bar-
rel" Legislation

(By The Associated Press)
WASHINGTON, April 7.—The
bill to provide a score more of
federal judges and oppose as a
measure to relieve congestion in
federal courts and oppose as a
political patronage "pork barrel"
was passed today by the senate
and sent to conference with the
house.

Twenty-three more federal dis-
trict judges distributed thruout
the country and one more judge
for the fourth circuit are provided
by the senate bill as against 22
district judges under the original
bill passed by the house last
December. The senate vote on
final passage was 44 to 21 with
party lines broken. Eight Demo-
crats voted with 36 Republicans
for the bill. The opposition in-
cluded eight Republican and 13
Democrats among the Republicans
being Senators Borah, Capper, La-
Follette and Townsend.

The "pork barrel" and "log
rolling" charges made openly on
the floor by Democratic opponents
of the bill and denied by its sup-
porters were followed by some
open maneuvers and kaleidoscopic
vote changing during the dozen
roll calls on amendments today.

The bill finally contained provi-
sions for four more district judges
than recommended by the senate
judiciary committee. These in-
clude one each for New Jersey,
New Mexico, the Western Mis-
souri district and the Southern
Florida district.

As passed by the senate the bill
would give an additional judge to
senators from the fifth district in
Northern Illinois, Minnesota, East-
ern Missouri and Western Mis-
souri.

The bill provides for an an-
nual fall conference of Senior
Circuit Judges at Washington
with chief justice and attorney
general to make a comprehensive
survey of judicial districts of the
country and make bench assign-
ments. It provides also for as-
sessment by the chief justice of
judges to districts where there is
congestion or where the public
interests generally require such
assignment. This provision was
attacked by Senator Shields, Dem-
ocrat and others but the senate
rejected an amendment by Mr.
Shields to prohibit transfer of
District Judges without their con-
sent.

Must Devote Time to Office.
An amendment by Senator Dial,
Democrat, requiring judges to de-
voted their time to the duties of
their offices and prohibiting their
receipt of outside compensation
was adopted without a record
vote. This was an echo of Sen-
ator Dials criticism of former
Federal Judge Landis, after the
latter's acceptance of a large sal-
ary as commissioner of organized
baseball.

The bill's provision for assign-
ment of judges to other than their
own districts was attacked par-
ticularly by Senator Shields who
said it might result in transfer-
ring "dry" judges to "wet" dis-
tricts. He also charged that paid
lobbyists of the National Anti-Sal-
oon League were working among
senators in behalf of the bill.

Wayne B. Wheeler, general
counsel for the league today be-
fore the final vote on the bill is-
sued a statement declaring that
the measure would greater aid
law enforcement.

GIVE RECOGNITION
TO WORD "FLAPPER"

WASHINGTON, April 7.—Offi-
cial recognition of the term
"flapper" is contained in today's
weekly issue of reports by the de-
partment of commerce. It is con-
tained in an article headed "some-
thing new for the flappers,"
which speaks of "dik dik fur
from Northeastern Africa as a
possible competitor of the musk-
rat."

The department based its an-
nouncement on a report from
Consul Cross who said that the
dik dik, a type of gazelle, may be
used for its fur as well as its skin
if investigations now being carried
on with that end in view are suc-
cessful.

CANCELLED DRAFTS TO THE AMOUNT OF \$8,500 LOCATED IN CHICAGO

State's Attorney's Office Claims They Were
Used to Purchase Permits—Allege They
Were Made Out to Cloah M. Miller—Di-
rector Was Not at Springfield Office Friday

(By The Associated Press)
CHICAGO, April 7.—According to an announcement
from the state's attorney's office tonight cancelled drafts
amounting to \$8,550 which the state claims were used to
purchase permits to practice medicine and pharmacy,
were found in a bank here today.

W. H. H. Miller, director of the department of registra-
tion and education and three others were indicted by a
grand jury yesterday for conspiracy to allow persons not
qualified to obtain licenses and practice medicine. The in-
dictments also charged the defendants received unnamed
rewards for allowing those unqualified to pass the state
examination.

The drafts, according to inves-
tigators, were made out to Cloah
M. Miller, wife of Director Miller
and nearly all were sent to her in
March. Other alleged payments
are being traced by Samuel Ham-
ilton, assistant state's attorney
acting on information furnished
by Dr. Samuel Pomon who testi-
fied before the grand jury.

Miller Not at Office
SPRINGFIELD, Ill., April 7.—
William Harrison Miller, director
of the state department of registra-
tion and education who was in-
dicted by a Cook county grand
jury on charges of conspiracy in
connection with alleged irregu-
larities in his department, left his
office here yesterday shortly after
he was informed of the indict-
ments against him, his son-in-law,
K. A. Fries and two others.

Relatives and attaches of Miller's
office said tonight that they
have had no word of him since he
left his office yesterday afternoon
but presumed that he had gone
to Chicago.

Fries remained at the office to-
day but indicated his intention
of going to Chicago tomorrow to
arrange his bond of \$5,000. The
amount of Miller's bond was fixed
at \$10,000.

If Miller has not gone to Chi-
cago, friends here tonight said
their next guess would be that he
went to his home at Champaign
to remain over the primary elec-
tions next Tuesday.

Persons most intimately con-
nected with Governor Small's
closest circle were inquiring today
for the missing director.

MARKET RESUMES
ITS UPWARD SWEEP

(By The Associated Press)
NEW YORK, April 7.—Subject
only to moderate reversals due to
"cashing in" of profits the stock
market today resumed its upward
sweep, sales of 1,650,000 shares
establishing a new high record
for almost two years.

The further rise was charac-
terized by net gains of two over-
ten points in popular steels with
gulf states as the outstanding fea-
ture. That same stock several
months ago enlivened the market
by its extraordinary gyrations,
but today's gain of 10 1/2 points
was almost steady and resulted
from purchases of about 52,000
shares.

Other independent steels made
substantial gains. United States
steel, under pressure from which
partial recovery was made in the
later dealings.

Liberty bonds shared promi-
nently with the further enhance-
ment of stock market quotations,
New tops were made by the 3 1/2s,
first 4s and second and fourth
and 4 1/2s and victory 4 3/4s made
a net maximum on a cash sale at
101.

WILL TAKE UP
NOMINATIONS

WASHINGTON, April 7.—An-
nouncement was made today by
senate leaders of their intention
to have taken up next Monday the
nominations of Senator Smoot,
Republican, Utah and Represen-
tative Burton, Republican, Ohio
to be members of the allied debt
funding commission.

A canvass of the senate, the
leaders say indicates confirmation
of the two nominees despite an
adverse report by a majority of
the senate judiciary committee
which held that they are eligible,
because of their congressional
membership. Action in the fund-
ing operations has been suspend-
ed to await disposition of the
nominations.

READING IRON CO. RAISES WAGES.
READING, Pa., April 7.—The

tices today raising puddlers wages

ers are increased from 22 1/2 to
24 1/2 cents per hour.

HAS NO INTENTION OF IMPAIRING THE CIVIL SERVICE LAW

Statement from White

Senate Attack

(By The Associated Press)
WASHINGTON, D. C., April 7.
—Any intention by President
Harding to impair the operation
of the civil service law was spec-
ifically disclaimed by white house

dent's recent bureau of engraving
dismissals were again the target
of Democratic attacks in the sen-
ate.

Henry Ford entered no plea when his wife brought a suit for separate maintenance. But remember that this Henry Ford lives in Springfield, Illinois.

Of course every man has a right to be considered innocent until his guilt is proven. However, the evidence is piling up of irregularities in the state department of registration.

A Bloomington man who had operated a dairy for a period of years recently sold out his business for a consideration of \$50,000. One must keep one's eyes on the job in the dairy business, but evidently it has its reward.

Certainly there is no reason for real discouragement about the price of land. A farm near Arthur, Ill., was sold recently for \$350 an acre. An Amish man was the purchaser, but the people of that sect know what land can be made to produce.

The complaint is made that there is too much specialization in the big manufacturing plants of the present day and that individuality and initiative of workmen is disappearing. There is nothing new in that testimony, for it is an undeniable fact that individuality disappears as specialization develops. That is inevitable, but specialization will increase, for

HIGH SCHOOL NOTES

Miss Maude Ryman, public school nurse was at the high school Thursday and Friday of this week making physical examinations of all the students. Each student was given a thorough examination and Miss Ryman gave a considerable amount of time to the individual students. This is being done in connection with the public health program for the schools and determines the physical condition of the pupils with a view to correcting any ailments which may be discovered.

Miss Marie Golden, teacher of Biology and General Science at the high school is spending the week end with friends in St. Louis.

The monthly teachers' institute of the Jacksonville city schools will be held this morning from 9 o'clock until 12. There will be a general session and also sectional meetings during the morning.

The High school is making every effort to maintain a high standard of scholarship and one of the things which is being done to accomplish this is the use of poor scholarship reports. The teachers send out poor scholarship notices for the students who are not doing work of the required standard. The reports include what the teacher considers the reason for the poor work and sometimes a comment or suggestion as to the remedy for the situation. These reports are given to the faculty class advisors and the students are called up for conferences in regard to the work. It is occasionally deemed necessary for the principal to hold a conference with the student and every effort is made to remedy the situation which causes the poor grades.

The U. C. T. and T. P. A. can make an early train, so we will expect them at 10:20 at Dunlap to go to church.

KENDALL HOME FROM DISTRICT CONFERENCE

Morgan County Advisor Present at Springfield Meeting—Much of Interest is Discussed.

George B. Kendall, county farm advisor and H. E. Kinner, secretary of the Farm Bureau returned yesterday from Springfield where they were in attendance Wednesday and Thursday at the District Conference of farm advisors. The district includes 26 counties in the west central part of the state and there were about fifty delegates present. The sessions were held in the parlors of the St. Nicholas Hotel and the conference was very successful, in that it dealt with problems of vital interest to the farm advisors in the state.

One part of the conference that was of great significance to the farm bureaus in the state of Illinois was the plan adopted for the conducting of membership campaigns in the future. Instead of hiring paid solicitors the work of securing members will be carried on by men in the county or community where the organization is being formed. Farm authorities from the University of Illinois were present and gave talks, telling of the latest methods in soil analysis; testing the acidity of the soil; the raising of livestock; farm management; dairying; grain growing and other subjects of interest to the farmer.

A note of confidence in the United States Grain Growers, Inc., the Farmers' Co-operative Marketing association with headquarters in Chicago, was sounded at the conference. All of the farm advisors and delegates at the meeting feel confident that the U. S. Grain Growers, Inc. is going to make good and will prove of lasting benefit to the farmer. Homer Stein, assistant editor of the Prairie Farmer was present and spoke in high terms of the work which the organization has already done and of the achievements which may be expected from the co-operative marketing plan in the future.

SCHOOL ELECTION AT WHITE HALL TODAY

Retiring Board Members are Up For Re-Election—New C. & A. Time Card April 30—Other White Hall News Notes.

White Hall, April 7. — At the school election Saturday afternoon the retiring members of the board of education, Louis Lewenstein, president, and J. C. Spencer and A. C. Rich, members, are up for re-election. The new board will energetically push the new high school building. Bonds to the amount of \$65,000 having recently been issued for that purpose.

One of the rumored changes in connection with the new summer schedule on the C. & A. is the routing of St. Louis-Chicago night trains, Nos. 5 and 6, via Roodhouse and Springfield, giving this territory splendid direct Chicago service with Kansas City connection. The new time card is set for April 30th; C. & A. maintenance officials have been riding over this line frequently in recent weeks, and that gives emphasis to the rumor that the condition of the track and bridges is being closely studied with the view of inaugurating fast traffic.

D. W. Chittenden, assistant professor of animal husbandry of the University of Missouri, was a recent guest of W. S. Corra.

W. S. Corra returned today from a tour of Macoupin and Montgomery counties in the interest of his legislative race, and he states that the attitude of the great majority of the people whom he met is such that he feels unusual delight over his decision to undertake public duties should the result of the votes call him to the legislature.

DR. ROGERS AND SEARCY

TO MAKE ADDRESS TODAY

Republicans and others of this city and community will have an opportunity, this afternoon, of hearing Rev. Euclid B. Rogers, candidate for representative, and Earl B. Searcy, candidate for state senator, from this district. The two men will speak at 2:30 o'clock in the circuit court room.

Dr. Rogers, as an orator, is known throughout the entire middle west. He has spoken in this city on several occasions. Representative Searcy, an overseas man who survived several front line infantry engagements, is this year endeavoring to step from the house into the senate. He is opposing Senator John A. Wheeler. Both speakers informed the Journal that they want a special invitation extended to women of the city to be present at the meeting.

A GIFT OF ORANGES.

Further testimony was borne yesterday to the long standing friendship between Charles F. Marcy of California and Charles Hopper of this city, by the arrival of a box of luscious oranges. Since he has been resident in California he does not fail from year to year to remember his former partner and a box of oranges is received at regular intervals by the Jacksonville man.

The gift of "California's congealed sunshine" is always appreciated and Mr. Hopper greatly values the gift and the lasting friendship to which it testifies.

CLEAN POLITICS

A Final Message to My Fellow Republicans

You will have the opportunity next Tuesday, April 11, of voting for legislative candidates you feel are most worthy of your confidence and support.

In some communities of this senatorial district, the primary contest leading up to the election has been full of bickering and strife and misrepresentation. You are glad the fight is so near its close. So I am. Party men and women who, in September, 1920, were together in thought and action, this spring are at variance. Much has been said and done that has aroused our disgust and contempt.

The first contest of its kind in Illinois in many years was witnessed in the fall primary of 1920. The Chicago hall, at that time, took its first hand in state-wide political affairs. This spring, history has repeated itself. We are fighting the same forces now that we fought then. The spectacle does not set well with the average voter, whose interest is in clean government, clean politics and an honest expenditure of funds that he pays to the state government in the form of taxes.

It is the function of a law-maker, whether in the Senate or House, to use his influence and vote in behalf of good and efficient laws. If he does not function thus, he betrays the people who elect him to office.

When a public official, and I don't care what his rank may be, forgets that he is but a temporary trustee of the people's affairs, that official forfeits the respect and confidence of good citizens. When a public official assumes, because he holds office, that he can use our tax moneys, our charitable and penal institutions, our employees who are paid their salaries from out of tax moneys, and all the other machinery of state, to further his own political ends, or the political ends of men pledged to serve his own selfish purposes, then that official is a traitor to the people who have honored him.

Illinois is due for a political house-cleaning. It can be started by the next General Assembly. It will not be commenced by the next legislature, however, if the men who compose it are tools of an element that has proven its stripe in Cook county, and seeks now to operate down-state. If the next General Assembly does not begin, in sharp terms, to check this influence where it is, you and I will witness the worst political debauch of all time, in 1924.

It is the Ludin-Thompson way, if scheming politicians cannot clear the patch for themselves peacefully, to try to do so by means of character assassination. And, pitiful as the situation may be, there are local followers of the Ludin-Thompson idea in Morgan county—men who, in 1920, said they were against that kind of thing—who, this spring have allowed themselves, because of financial inducements, to pursue the same tactics. Let that brand of politics proceed a little farther, and it will be impossible to induce men and women to run for public office who have any respect for themselves, or for their families.

I am against such politics. I was against it in 1920, and I have not changed my position or my convictions. Such methods have got to end. We have got to arrive at the point where the state, instead of the individual politician, comes first.

It is the privilege of Senator John A. Wheeler, my opponent in this race, to change his stand and his beliefs from those of 1920, if he wants to do so. He has publicly pledged himself to carry out, if elected the policies of the Ludin-Thompson-Small political group. He obeyed the mandates of that element in the last General Assembly, after condemning it in September, 1920. Why he became so abject a follower is probably a matter for him to settle with his own conscience. At any rate, that is what happened and in pursuance of his change of heart, he introduced the anti-civil service bill and was, in short, an administration leader in the senate.

In return for that support, Governor Small has placed at Mr. Wheeler's disposal in Morgan county the whole strength of the Richard (Dick) L. Dye political faction. Mr. Dye, by virtue of his appointive standing at the hands of the Governor, is regarded as the administration leader here. He is head, therefore of the Wheeler campaign organization.

Governor Small also has placed at Mr. Wheeler's disposal the full strength of the state institutions in Jacksonville—institutions owned by you and me, supported by you and me, and accountable to you and me, as citizens, for their proper maintenance.

Pledge cards have been circulated freely in Wheeler's behalf. Employees who have failed to do their bidding in connection with these pledge cards, have been discharged. Some of them are at home today and among them are men who served in the late war. They are outraged at this un-American attempt to steal from them their constitutional right of free and independent franchise. And, while these efforts have been going on for the purpose of black-jacking voters into line for the Ludin-Thompson-Small candidate for the State Senate, paid workers have been calling at private homes, and have been holding meetings, trying to tell intelligent people that the forces opposed to Wheeler are "vicious, lawless and the creatures of an illicit underworld."

I have never heard of such infamy, such hypocrisy, such falsehood. And yet, certain elements in this senatorial district condone those methods.

And, this is the kind of politics we are forced to witness. I have managed, thus far, to avoid personalities. I deplore and detest a campaign based on such practices. I am new at politics, I will admit, but the desperate means which part of the opposition has employed in order to force its candidate into office, whether or no, have thoroughly disgusted me.

I am everlastingly against such political methods as have been foisted upon good people by this Chicago crowd aided by its local followers, that knows no value of human character or good name. Mr. Wheeler can lend his influence to that kind of thing if he wants to, but I will not do it. I am ready to support all good measures that come from the Small administration, in spite of its threats and its meaningless promises; but as for the purely political ambitions of the crowd that is back of that administration, if I go on in public life as your servant, I shall fight them.

In addition to the issue I have set forth, there is looming another which, to the average voter is bigger than all—that of CLEAN POLITICS as against UNCLEAR POLITICS, and the despicable methods that go with the promotion of the latter.

I feel that, if I am to go on for a time in public life, my duty to an honest electorate will not be performed until I dedicate myself unconditionally, to the cause of clean politics. That pledge goes, so far as that is concerned, if I am to remain in private life. Government and politics in this Republic of ours, are inseparable. If one is clean, the other has got to be.

So far as "organized" backing in Morgan county is concerned, I have none. I am appealing to voters who know the history of the last year and a half in this state, and who know of my opponent's intimate connection with, and future pledges to, the elements that have brought the cloud.

It has never been my stock in trade to make claim to any superabundance of virtues, but I am at least sincere.

is to be spent in the home commu-
nity. Other guests of the day in-
troduced by President Riley were
Roy Nelson, formerly of Geneva
and now resident here; W. E.
Barrquist of Chicago, G. B. Andre
and Ralph Reynolds of this city.
Frank J. Hehl presented a re-
port of the activities at the Mer-
cedia club house last year and
stated that the house has been
reserved for boys and girls' or-
ganizations for practically all of
the coming season, altho there are
a few open dates.

The reports for the On to De-
catur committee, were made by
Lloyd Hamilton and Earl Spink,
while L. F. Randall and H. M.
Capps made report for the "On-
tus for Governor committee. The
balance in the hands of one of
these committees was by vote of
the club applied upon an indebted-
ness on the club house. The re-
maining indebtedness was provid-
ed for by President Riley, John
Hackett, C. A. Johnson and others
and the Mercedia enterprise is
now entirely free from indebted-
ness.

Dr. Sears said that on every
hand these days are the signs of
better co-operation and closer
understanding among men. In
business many of the old jealous-
ies which narrowed men's lives
have disappeared and men engag-
ed in business take a broader view
and seek to have business done in
a way which will be mutually
satisfactory.

The same thought has stirred
the churches of the country and
as the years go by there are less
and less differences among de-
nominations, as the various
churches lay emphasis upon the
important things and forget those
things that are of lesser moment.

Then the speaker said that he
had seen the signs of good feeling
and of the desire to co-operate
among the people of Morgan coun-
ty and that based upon travels
thru a wide area during twenty
years of lecture platform work
that he had yet to find a more
stable and satisfactory commu-
nity than exists here.

Members of the club were very
much interested in Dr. Sears'
brief address and President Riley
invited him to be a guest of the
club on any Friday he happened
to be in Jacksonville.

**C. & A. OFFICIALS
WORK ON NEW CARD.**

Officials of the Chicago & Al-
ton railroad are working on a
new time card, which is to become
effective April 30. So far as is
known there are no important
changes which will affect this di-
vision. The passenger business
of the Alton is so good that a new
Chicago-St. Louis train is to be
put into service. This train is
to leave Chicago about 11:30 at
night and will make only a very
few stops between Chicago and St.
Louis.

Trains Nos. 40 and 41 which
now run between Springfield and
Alton, will be abolished as they
have not been profitable. The
same is true of trains Nos. 23 and
24, which run between Mexico
and St. Louis. The morning train
from St. Louis to Jacksonville is
to move about 20 minutes later
than the present schedule.

**WOULD CONSERVE
COUNTRY'S FORESTS**

Chicago, April 7.—Conserva-
tion of the country's forests and
stimulation of small home build-
ing were made the subject of re-
solutions at the closing sessions
of the National Lumber Manufac-
turers' Association and the American
Lumber Congress today. Opin-
ion was expressed that the preser-
vation and replacement of timber
should be left to the public and
that the public as the principal
beneficiary should at its own ex-
pense, assume this responsibility.
The manufacturers endorsed the
grade marking of lumber "for the
protection of the user," and de-
clared for a rigid maintenance of
such grades thru association in-
spection.

**DAMAGE SUIT FILED
IN CHAMPAIGN COUNTY**

Judge E. P. Brockhouse is Attor-
ney for Miss Alverson Who Was
Injured by an Automobile Last
November—Damages in Sum of
\$30,000 Asked.

In the circuit court at Cham-
paign county at Urbana yesterday
Judge E. P. Brockhouse of this
city filed on behalf of Miss Maude
Alverson a damage suit for \$30,-
000 against Ira A. Collins and
Ralph Smith. The basis of the
suit is an automobile accident
which happened last November,
when Miss Alverson was severely
injured.

The complainant is a teacher in
the Urbana high school and was
on her way to school on the
morning of the accident. The
side walk on the street where the
accident happened is near the
curb line of the pavement. It is
the claim of defendant Collins
that his car was forced upon the
sidewalk by the car of defendant
Smith. Be that as it may the Col-
lins car dashed upon the side walk
with such speed that Miss Alver-
son did not see or hear the ma-
chine before she was struck down
and run over.

The young woman was taken
immediately to a hospital and did
not recover consciousness for a
considerable time after the acci-
dent. She remained at the hospi-
tal for a period of weeks and it
developed that she had received a
spinal injury from which she has
not recovered.

The Collins car was driven
by her daughter to school,
and Mr. Smith's car was
driven by his son, who was
also enroute to school. The ques-
tion as to the liability of the own-
ers of the cars has been raised,
because they were not driving
them at the time of the unfortu-
nate accident.

Miss Alverson has friends and
relatives in Morgan county and
has visited here a number of
times. Attorneys Williamson and
Winkelman are associated with
Judge Brockhouse and the case is
to be heard at the April term of
court.

This cry coming from the deck

the lion was too cold and wet to
be ferocious and the less timid
pedestrians emerged from their
hiding places.

The Bayern brought over a reg-
ular zoo.

GEORGE L. RIGGS

Candidate for the Republican Nomination for County Clerk

George L. Riggs has served as county clerk of Morgan county for a little more than three years and is seeking renomination on his record in office.

As an official in charge of an important department of county affairs, Mr. Riggs has at all times kept the interests of the people and of the county foremost. The thousands of people who have come in contact with the office during Mr. Riggs' term of service can testify that every possible courtesy has been extended to them, and know that business has been handled in a prompt and efficient way. The county clerk's office in many ways comes in intimate contact with the public. The opportunity is given to know the kind of service available.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "po good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

BIRD LOVER GIVES

LECTURE AT I. W. C. J. C. Musselman of the Business College in Bloomington gave a lecture at Illinois Woman's College yesterday afternoon on the subject of birds. Mr. Musselman has taken up the study of bird life as a sort of hobby and besides being much interested in the subject, is quite an authority in the study of Ornithology. He gave an interesting lecture in the social room of the college yesterday afternoon and illustrated his talk with excellent stereopticon pictures of our feathered friends in their native haunts.

A FRIEND IN NEED
A FRIEND INDEED

Writes Mrs. Hardee Regarding Lydia E. Pinkham's Vegetable Compound

Los Angeles, Calif.—"I must tell you that I am a true friend to Lydia E. Pinkham's

Vegetable Compound. I have taken it off and on for twenty years and it has helped me through from a delicate girl to a stout, healthy woman. When I was sick I was sick all the time until I took Lydia E. Pinkham's Vegetable Compound. I was in bed much of my timewith pains and had to have the doctor every month. One day I found a little book in my yard in Guthrie, Oklahoma, and I read it through and got the medicine—Lydia E. Pinkham's Vegetable Compound—and took eight bottles and used the Sanative Wash. I at once began to get stronger. I have got many women to take it just by telling them what it has done for me. I have a young sister whom it has helped in the same way it helped me. I want you to know that I am a friend indeed, for you were a friend in need."—Mrs. GEORGE HARRIS, 945 Byram St., Los Angeles, California.

STOCK MARKET HAS ANOTHER BUSY DAY

By Associated Press. NEW YORK, April 7.—For the fifth consecutive session trading on the stock exchange took on enormous proportions, transactions aggregating 1,650,000 shares and established another new high record for almost two years. The movement of prices was "spotty" at intervals as a result of realizing for profits in several issues which made great gains earlier in the week. This was most noticeable in such stocks as Baldwin and Studebaker altho net losses in both cases were limited to fractions.

Gulf States Steel was the dominant feature, gaining 10 1/2 points. Rails contributed largely to the market's constructive side. Secondary rails were featured by Rock Island at a gain of 2 1/2 points. The course of money was helpful to stock dealings, all call loans holding at 4 1/2 per cent, this applying to renewals into the coming week. Time funds were quoted at 4 1/2 per cent for the longer dates, but this was shaded to 4 1/4 per cent on prime collateral.

Foreign exchange reflected the more hopeful advices respecting the forthcoming Genoa conference. Sterling rose one cent. All allied remittances showed moderate improvement, as did also German, Dutch, Scandinavian and Spanish bills, the latter rising 12 points.

Several Liberty bonds, notably the 3 1/2s, Second 4s and Second 4 1/2s registered higher records this evening later on profit taking.

Total bond sales par value, \$14,100,000.

SCHOOL CHILDREN TO MAKE BIG PARADE

Will Be Feature in Launching Big Clean-Up and Paint-Up Campaign—Will Be Held Saturday Morning, April 15.

A parade in which hundreds of Jacksonville School children will participate is planned as the launching feature of the big Clean Up and Paint Up campaign week in this city. The members of the committee in an interview with Superintendent H. A. Perrin secured permission to have the school children march in the big parade which will be held Saturday morning, April 15th at 9:30 o'clock. A letter will be sent to all the schools and the children will be asked to take part in the parade. Brooms, rakes, wheel barrows, brushes, and cleaning utensils all kinds will be carried by the children and the parade will be led by the band.

Immediately after the parade the Boy Scouts will start out on a preliminary survey of the city and will report to the committee on all the property which they find which needs cleaning up. A week from Saturday, or on April 22nd the Scouts will again make a survey and will take pictures of all the places which have not been cleaned up during the week. In this way the committee can tell what parts of the city have not been cleaned up and what districts have not co-operated in the movement.

On Monday evening, April 17th the public school children of the city will put on a Clean-Up and Paint-Up play or pageant in the high school auditorium. Representatives from all the schools will take part in this affair and songs, stunts, debates, speeches and little plays, all suggestive of clean up week, will be given. The school children are showing a great deal of interest in the movement and some of the schools have already arranged their part of the event to be given at the high school. A number of stick-ens, and buttons advertising Clean-Up week have been ordered by the committee and will be distributed among the school children. Miss Maude Ryan, a member of the committee is planning the affair to be given by the public school children at the high school.

JOINT RECITAL AT ACADEMY HALL

Miss Helene B. Sorrells and Miss Ruth M. Armstrong appear in Brilliant Program—Audience Was Enthusiastic in its Reception.

Last evening an enthusiastic audience greeted Helene B. Sorrells, violinist and Ruth M. Armstrong, contralto, in Academy Hall.

Miss Sorrells opened the concert with the Tartini Sonata in G Minor, showing a fine sense of balance in tone quality, shading and style. She achieved a very lovely tone in the largo, and exhibited a brilliance in the Presto non troppo, which was a splendid technical display—but did not lose sight of clarity in execution. Following Miss Armstrong's aria she played two groups of shorter numbers of a diversified character, all done very beautifully, especially "The Hymn to the Sun," by Korsakoff, and the Serenade, by Mr. Krich, which is an excellent piece of writing, deserving a more frequent hearing.

Mr. Krich shared honors in the Sonata which was played with a surety of finish that was a delight. Miss Armstrong's share of the program was equally varied, and showed her voice off to new advantages. Her aria was from Cadman's New Opera "Shanewis," "The Song of the Robin Woman" which she sang with excellent interpretation in point of dramatic values and tone color.

BOULEVARD LIGHT COMMITTEE MET

Unable To Reach Agreement With Railway and Light Company—Will Try to Install Lights Thru Property Owners.

The Boulevard Light committee of the Chamber of Commerce, composed of Felix Farrell, Albert Metcalf and W. S. Ehle met yesterday afternoon in the association rooms. It was brought out at this meeting that it seems impossible to secure a satisfactory agreement between the city and the Jacksonville Railway and Light Company as to the liability in using the light company's poles on East State street for the hanging of bracket lamps. Neither the city or the company is willing to assume the responsibility of any accidents or injury which might result to persons or property in case one of the lights should fall.

After some discussion the committee agreed to make a canvass among the residents owning property on East State street with a view to ascertaining whether or not they will be willing to have single standard lights similar to those used in the street. While this canvass is being made City Engineer Henderson will draw up an estimate of the cost of installing such lights. It is thought that the cost will not exceed \$1.30 per front foot. This would include the whole expense and would provide for the wires being laid underground.

The cost of installing lights of this character will be slightly greater but boulevard lights would be more artistic and attractive effect to the street than would the use of bracket lamps. The vista of East State street as seen from the depot to the square will be very bright and attractive if the efforts of this committee to secure boulevard lights, proves successful.

SELLING OF GOLF TICKETS UNDER WAY

Committee in Charge Reports Progress—Many People Expect to Play This Year.

At a meeting of the committee appointed to sell season tickets for the municipal golf course Friday evening good progress was reported.

The success of the committee so far shows that the public approves of the new plan of charging a small fee for playing over the local course. Reports given at this meeting indicate that there will be three times as many people who expect to play this year than in former years.

Already work has commenced for the improving of the Nichols Park course. The first seven tees were reworked this week. As soon as the weather permits the traps and bunkers will be placed.

In spite of unfavorable weather conditions Mr. Keywood and his assistants have been going ahead with their work. It is expected that by May 1 the course will be in good shape for the opening.

FACTS ABOUT STATE GIVEN IN ADDRESS

Frank Heintz Talked Over Illinois History With Congregational Brothhood.

The Congregational Brotherhood held a regular meeting Friday night with a goodly number of members present to enjoy the splendid supper that was served at 6:30 o'clock. Ed Spink, president of the organization, presided and introduced as the speaker of the evening, Frank J. Heintz, who talked about early days in Illinois history.

Mr. Heintz presented a very interesting review of the development of Illinois from pioneer days. He made particular reference to Jacksonville and Morgan county and included a history of the Congregational church. Few of Mr. Heintz's auditors knew before that Morgan county from 1830 to 1845 was the most populous in the state.

A great deal of interesting information was presented concerning the various phases of life in the county from the year that the population was not in excess of 100, up to the time when that number had increased up to 12,000 and 15,000.

Usual facts about the life of the early days were presented. Mr. Heintz has for years been an enthusiastic student of Illinois history and in the search for little known facts he has accumulated an Illinois historical library that is not surpassed. That the speaker had a vast fund of information to draw upon was quite clear to the members of the Brotherhood last night.
